This course will meet the educational requirements of OSHA 29 CFR 1926 Subpart P Excavation & Trenching for a Competent Person. Each employer must also designate said person to be a representative Competent Person in said subject to be fully recognized by authorities to meet this requirement. Upon successful completion, students will receive a certificate of completion and wallet card.

Objectives:

- Provide an understanding of the responsibilities as a competent person for excavation
- Provide a system and approach for workplace inspection and planning for excavations
- Provide an understanding of the hazards involved with trenching and excavations
- Provide the differences between a trench and an excavation
- Hands-on training in excavation evaluation and hazard prevention
- Through classroom testing, ensure comprehension of provided materials on excavations and trenches
