

The BCA Safety Committee Invites You

NFPA 70E Electrical Safety Training for Qualified Personnel

DATE: Thursday, January 19, 2023
TIMES: 8:00 a.m. to 12:00 p.m. | Refreshments Provided
PLACE: Speedway Concrete Training Center
4817 Industrial Road – Fort Wayne, IN

This four-hour course explains common electricity hazards, risk assessment strategies and NFPA and OSHA resources on safe work practices for electrical work. Specific topics include:

- Hazards from Shock
- Hazards from Arc Flash
- Electrical Standards
- PPE Requirements
- Arc Flash Assessments
- Protecting Everyone Else
- Common OSHA Subpart S Violations

For a detailed agenda, [visit this link](#).

Target Audience: Anyone with the potential to work on or interact with electrical equipment including: electricians, maintenance personnel, HVAC specialists, and controls technicians. This class is also good for safety and management personnel so that they are aware of the requirements.

Students will receive a certificate from Peyton confirming they have received four-hours of electrical safety training for qualified personnel.

Presented By Dan Powers, Senior Project Engineer
Peyton Technical Services
